ASHISH VIBHOR

"Ideas to Impact through Technology"

PRODUCT ENGINEER | SOFTWARE DEVELOPER

+91 81899 70016 | ashishvibhor920@gamil.com | linkedin.com/in/ashish-vibhor | github.com/ashis2489 | leetcode.com/u/2301301008 | Panipat, Haryana

TECHNICAL SKILLS

Programming

Python • JavaScript • C++ • HTML • CSS • SQL

Frontend

React.js • Next.js • Three.js • Tailwind CSS • Responsive UI

Backend

Node.js • Express.js • REST APIs

Databases

MongoDB • MySQL

Cloud & DevOps

Cloud Computing • AWS Basics • Vercel

Tools

Git • GitHub • VS Code • Postman • Figma Basics

CS Fundamentals

DSA • OOP • DBMS • OS • Networks • Software Engineering

Problem Solving

LeetCode • Competitive Programming

CORE STRENGTHS

- Product-focused problem solving
- Full-stack web development
- Responsive UI / UX implementation
- API integration & deployment

EDUCATION

B.Tech – Computer Science & Engineering

Geeta University, Panipat

2023 – Present

RELEVANT COURSEWORK

Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, Software Engineering, Cloud Computing

LANGUAGES

English — Professional

Hindi — Native

DEVELOPMENT FOCUS

- Product Engineering
- Full-Stack Development
- Three.js / Interactive UI
- Problem Solving

INTERESTS

Technology • Product Building

Problem Solving • Learning

PROFILE SUMMARY

Computer Science student and aspiring Product Engineer who enjoys turning ideas into practical, user-focused products. I enjoy building across the stack, creating responsive interfaces and solving real-world problems with modern web technologies. Curious, hands-on, and always learning, I'm focused on growing as an engineer while creating simple, meaningful experiences through technology.

EXPERIENCE

Web Development Intern – TalentGro Global *Jun 2026 – Aug 2026*

- Built responsive frontend features using HTML, CSS, JavaScript, and React.js.
- Developed reusable UI components with clean, maintainable code.
- Contributed to user-focused interface improvements and responsive experiences.
- Used Git/GitHub for version control and collaborative development.

Student Intern – Geeta Technical Hub *Jan 2024 – Mar 2024*

- Supported technical and software-development activities in a practical environment.
- Applied programming and problem-solving concepts to hands-on development tasks.
- Strengthened practical knowledge of web technologies and development workflows.
- Used Git/GitHub and modern development tools during project work.

SELECTED PROJECTS

Disha for India *2026 – Present*

Next.js | TypeScript | Supabase

- Built a user-focused platform around a practical real-world problem.
- Developed responsive interfaces and structured content for clear navigation.
- Worked across frontend and backend services with Supabase.

Campus Delivery *2025*

React | Node.js | Express | MongoDB

- Built a campus platform for food ordering, rider management, bus requests, and checkpoint notifications.
- Designed flows for multiple user roles and practical campus needs.
- Integrated frontend and backend components end to end.

Nirogitanman *2025*

Next.js | TypeScript | Supabase

- Developed a digital wellness experience with structured content and interactive flows.
- Built responsive pages and reusable UI components focused on clarity.
- Explored an AI-consultation concept within the product experience.

Portfolio Website *2026*

HTML | CSS | JavaScript | React.js | Three.js | Vercel

- Built a responsive portfolio with interactive Three.js elements to showcase projects and skills.
- Created a clean UI using modern responsive design principles.
- Deployed the portfolio using Vercel.

TECHNICAL HIGHLIGHTS

- Frontend: React.js, Next.js, Three.js, responsive UI, component-based development.
- Backend: Node.js, Express.js, REST APIs, MongoDB / Supabase workflows.
- Engineering: Git/GitHub, deployment workflows, maintainable code, product iteration.

DSA / LEETCODE

- DSA practice: arrays, strings, DP.
- Optimization & complexity focus.
- Regular LeetCode problem solving.
- leetcode.com/u/2301301008

ACHIEVEMENTS

- Completed two hands-on internships.
- Built multiple practical full-stack projects.
- Developed products around real-world needs.
- Active Git/GitHub development profile.
- Earned an August Leet-Code Badge
.
